Message Title: Production Problems

Scripture: Matthew 23:15, Romans 10:14, Luke 6:46-49, Matthew 28:19

Theme: EVERY single church (or religious organization, for that matter) has a discipleship process in place already (even if they don't realize it). Each organization is already producing disciples...they might not be the kind of disciples that you were hoping for though.

Reflective Questions:

1. What raw materials do we have going into our factory?
2. What are we currently producing?
3. Will the product that we are producing create multiplication?
Give proof.
4. What changes do we need to make to help our production?
5. What do I need to change personally?
